The screenshot shows a window titled '*** FILE SENDING' with standard window controls. The menu bar includes FILE (F), EDIT (E), VIEW (V), FAVORITE (A), TOOL (T), and HELP (H). The address bar shows 'http://***. **. **. **/data01. html' with a 'MOVE' button. The main area is divided into two sections. The left section (84) displays a file preview with a header '****', a separator line of asterisks, and a body of text consisting of several lines of asterisks and some alphanumeric characters. The right section (81) is titled 'SENDING PARAMETERS' and contains the following information: 'FILE NAME: ****', 'PAGE NUMBER: 10 PAGES', 'DATE OF SCAN: 01/15/01 13:15', 'Resolution: 200', 'Color: MONOCHROME', 'File format: PDF', 'E-mail: ***@**. co. jp', 'InternetFax: [empty]', and 'FAX: [empty]'. There are three input fields for parameters, labeled 81, 82, and 83. At the bottom, there is a checkbox labeled 'A page has been shown.' and a progress bar.
